

**6<sup>th</sup> International Conference on Renewable Energy Sources and Energy Efficiency - New Challenges (RESEE2018), 1-2 November 2018, Nicosia CYPRUS**

**Student Poster Session**

A special Student Poster Session will take place during the conference, which is a great way for students to showcase their research. The aim of the poster session is to initiate discussions between the students and the conference participants, as well as among the students themselves. Students may showcase any research they have done in the fields of renewable energy sources and energy efficiency. The Student Poster Session can be accessed by all attendees of the conference; to facilitate this, no parallel sessions will take place.

Students wishing to participate must submit a 250 word abstract by Friday, March 30, 2018 to the email address: [efmlab@ucy.ac.cy](mailto:efmlab@ucy.ac.cy). Participation is free of charge. Guidelines for the posters will be emailed once submissions have been chosen and approved. Posters presented at this session will be considered for a prize for best student posters.

For further information please contact Assoc. Prof. Marina Neophytou ([neophytou@ucy.ac.cy](mailto:neophytou@ucy.ac.cy)) at the University of Cyprus.
